

Hydrophilic continuous dampening roller

J-SQUARE

J-SQUARE is a dampening roller with excellent hydrophilic properties.

Hardness : 25° · 30° · 35°

J-SQUARE

Features of J-SQUARE

1 Less change of nip width

Excellent swelling resistance against even the latest UV ink, such as high-sensitivity UV-curable offset inks for power-saving UV lamp and high adhesive UV ink for printing.

2 Excellent hydrophilic properties

A uniform film thickness of water can be supplied, and printing starts up quickly.

3 Increased strength

Improved surface characteristics compared to conventional products. Can be used stably for a long period of time.
